Areas of Good Practice

7a. Are there are particular features of student assessment that you would like to highlight as being innovative?

I have not identified innovative practices but there is evidence of good practice I will highlight below.

7b. Are there are any particular areas of good practice in relation to standards and assessment processes that would be worthy of dissemination to a wider audience?

The internal moderation and calibration practice is very good and has been consistent across the modules I have examined. The assessment documentation and briefing documents are very good, well thought through and consistently used.
